

Physics 152—Accelerated Physics II: Electricity, Magnetism, and Optics  
Homework Assignment #4  
Due Friday, September 29, 2023, 10:00 am

## Mastering Physics

Do the on-line assignment “HW #04.”

## Pencil-and-Paper Problems

There are no pencil and paper problems this week.

## Academic Honesty

Since there is no written work this week, there is no place for you to write down and acknowledge any collaborators. Nevertheless, the same basic principles of intellectual honesty apply. You may get help from others, but the work you ultimately turn in *as* your own should *be* your own.
